M E M O R A N D U M

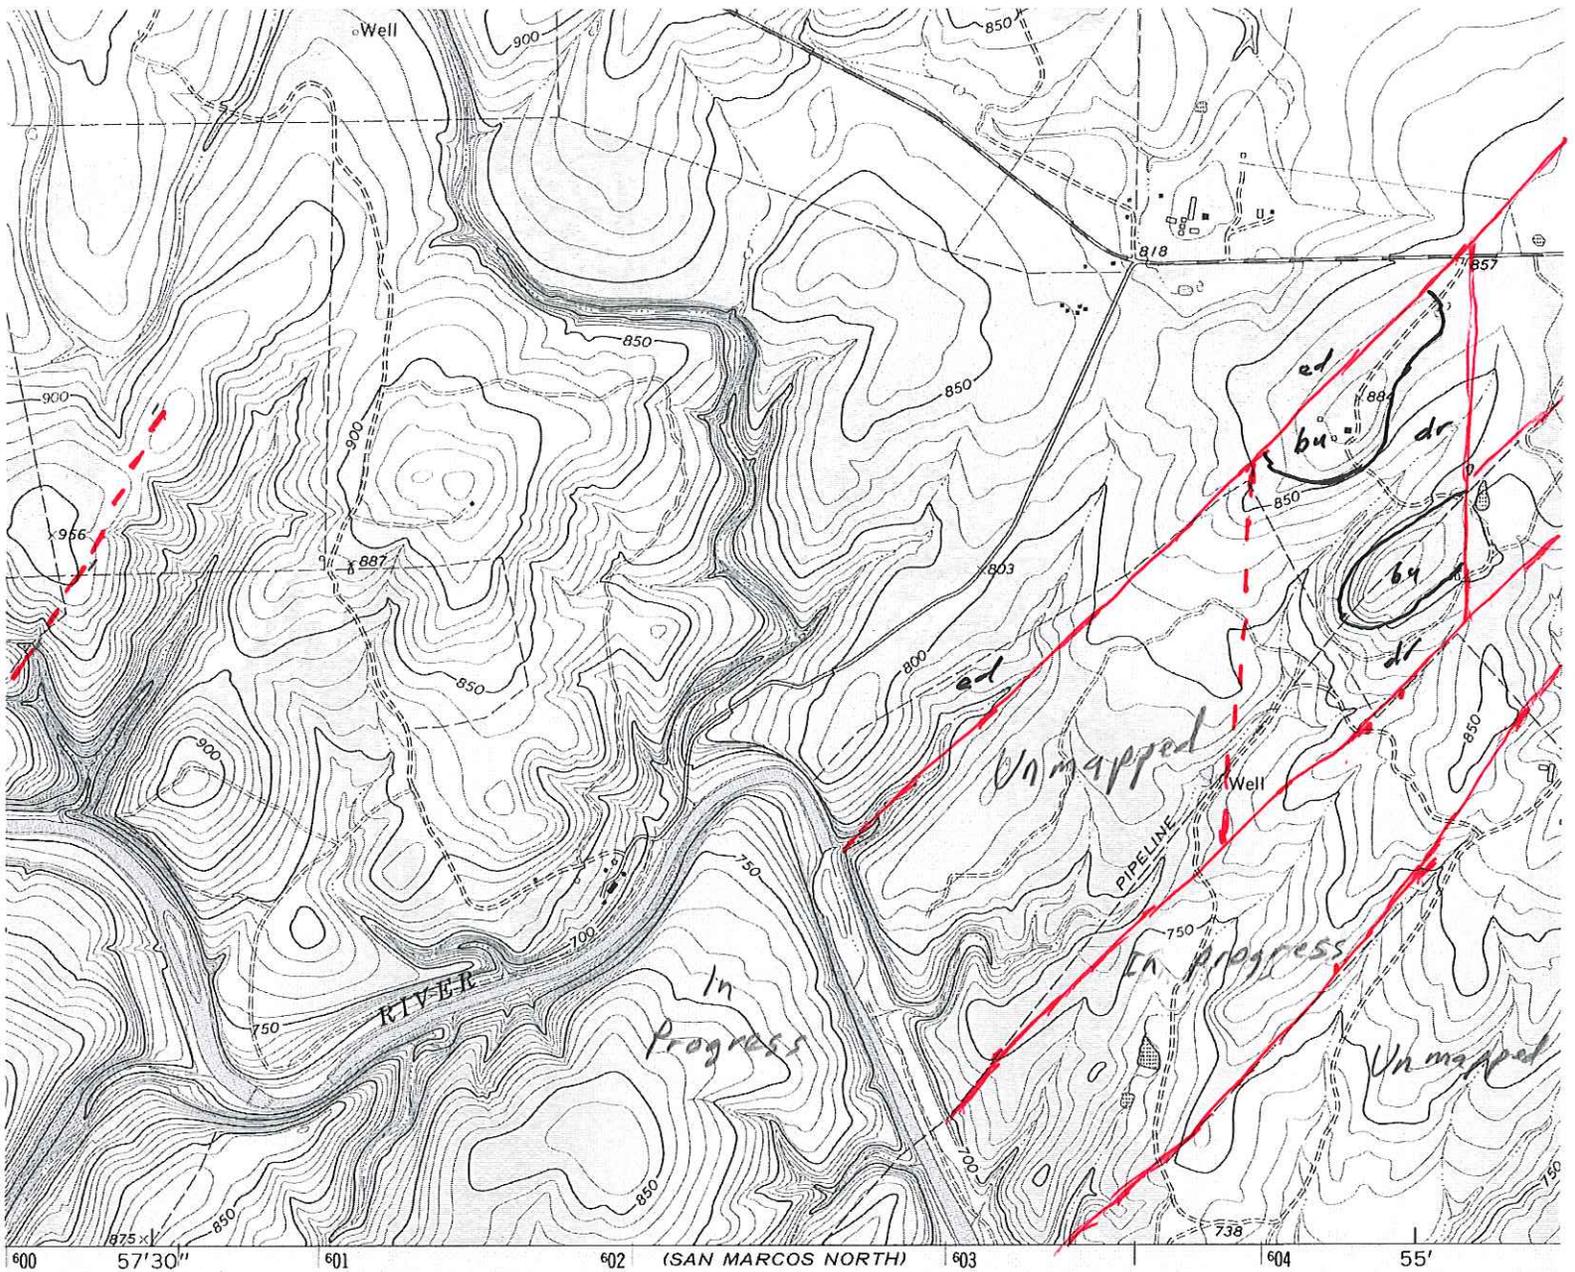

To: Brian Hunt
From: Tom Grimshaw
Subject: Report of Filling in Unmapped Area Northeast of the Blanco River

An area that has not yet been mapped (actually, remapped from my 1976 dissertation) in our Mountain City Quadrangle Project is the “unmapped“ area extending from the Blanco River as shown in Attachment A. I have recently been able to partially fill in this “hole”. The air photo showing the added mapping is in Attachment B.

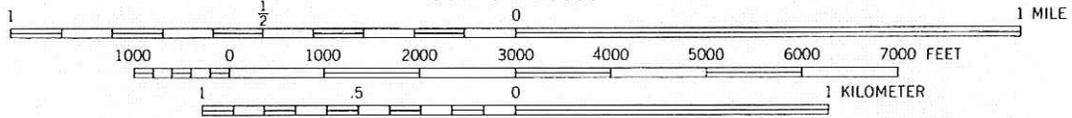

Please let me know if you have any questions or comments.

Attachment A.

Geologic Map Showing “Unmapped” Area Northeast of the Blanco River

SCALE 1:24 000

CONTOUR INTERVAL 10 FEET
 NATIONAL GEODETIC VERTICAL DATUM OF 1929

NORTH
 UPPERT
